Office 365 - Thunderbird Configuration

Article: KB0000157    Published: 2014-02-19    Last modified: 2014-04-16

Question

How do I configure my Thunderbird for Office 365?

Overview

IET has begun to roll out Office 365 for select divisions of IET and is in the process of expanding their offering to other organizations on campus. Office 365 offers many of the features of uConnect but with all of your content hosted ‘in the cloud’ versus on premise.

Answer

1. Click, Create New Account.
2. Fill in your UC Davis Email address, Kerberos Passphrase and Click Continue.

Manual Server Information

Username: Full UC Davis Email Address (email@ucdavis.edu)

Outgoing: SMTP  
Server: smtp.office365.com  
Port: 587  
SSL Enabled: TLS  
Authentication: Normal Password

- By default subfolders for your account will not be loaded in Thunderbird.
- To make these folders available you must first Subscribe to them.
- Right-Click or Command-Left click on the Inbox and click Subscribe.
- Select all of the sub folders that you would like to be available in Thunderbird and click Subscribe.
- Once you are finished click OK.
